

Pilot II™ with WiFi™

1/2 HP CHAIN DRIVE GARAGE DOOR OPENER

For a Smooth Flight

If you're looking for reliable, effortless operation from your garage door opener, you get it all with the Pilot II garage door opener from Raynor. Powered by a 1/2 hp chain drive motor, it comes complete with several safety features designed to protect you, your family and your home. With our lifetime motor warranty, you are assured maximum performance day-in and day-out.

WiFi™

The Pilot II with WiFi comes standard with integrated WiFi providing an all-in-one solution. Free apps for Apple and Android.

MyQ®

MyQ technology enables you to securely monitor and control your garage door opener with your smartphone, tablet or computer. Alerts can be received as email or pop-up(push) notifications on your mobile device, so that you always know the status of your garage door. The MyQ mobile app is a free download requiring no annual activation fee.

Sensing Technology

With sensing technology, your door will stop closing if contact is made with a person or object.

Security+ 2.0™

Be sure your garage is safe from intruders. Rolling code technology assures a new code is sent every time the remote control is used.

Deluxe Series

Safety, Security and Performance

Dual Lighting

Opener light turns on automatically when The Protector System® safety infrared beam is broken and delivers 200 watts of light with adjustable light time delay.

Posilock®

Ensures the door remains securely locked when it is closed.

1/2 HP Motor + Chain Drive

Combined with the industrial-duty chain, the 1/2 HP Motor provides steady performance and lifting power.

Standard Included Accessories

Multi-Function Control Panel (882 RGD)

Our Multi-Function Control Panel operates the garage door opener and lights on your Pilot II. It also allows for fast, easy programming of accessories with the new learn button.

3-Button Remote Control (893 RGX)

This powerful multi-door control can operate 3 garage doors, gates or MyQ-enabled lighting accessories. Plus, multi-frequency Security+ 2.0™ technology virtually eliminates interference. The Pilot II comes standard with 2 remotes. Additional remotes are available.

Max Keyless Entry (877 MGX)

Opens and closes your door when you enter a 4-digit code. Enter a temporary code that allows guests and service people temporary access with a specific number of activations for a chosen length of time.

Protector System® Photo Eyes

Project an invisible beam across the door opening. If any object breaks the light beam while closing, the door will stop and reverse direction to full open position.

Optional Accessories

3-Button Mini Remote Control (890 RGX)

This powerful multi-door control can operate 3 garage doors, gates or MyQ-enabled lighting accessories. Plus, multi-frequency Security+ 2.0™ technology virtually eliminates interference.

HomeLink® Compatible (855 LM)

The in-vehicle universal remote control. The HomeLink System may require the HomeLink Repeater Kit on some vehicle makes and models. Please contact Raynor Customer Service for details.

Visit your Raynor Dealer for additional options and accessories.
